2MP IR Turret Camera with 3.6mm Lens

Matrix introduces its new range of Turret series that are designed for modern enterprises. Turret Series cameras are a blend of aesthetics in a succinct design with superior video performance. Powered with Sony STARVIS sensor, they deliver crisp images in low-light conditions. With minimum glass exposure, issues like dust and fingerprints are eliminated. Likewise, these enterprise grade devices do not let you compromise on your resources due to the H.265 compression technique. Furthermore, the camera offers in-built video analytics like motion detection, intrusion detection, tamper detection, tripwire detection to aid you in proactively handling potential risks. Finally, backed by national and international certifications these devices guarantee maximum operating time without failure.

ABOUT MATRIX

Established in 1991, Matrix is a leader in security and telecom solutions for modern businesses and enterprises. Matrix, an innovative, technology driven and customer focused organization, is committed to keep pace with the revolutions in security and telecom industries. With more than 40% of its human resources dedicated to the development of new products, Matrix has launched cutting-edge products such as Unified Communications, IP-PBX, Universal Gateways, Convergence, VOIP Gateways, GSM Gateways, IP Video Surveillance, Access Control and Time-Attendance. These solutions are feature-rich, reliable and conform to the international standards. Having global footprints in Europe, North America, South America, Africa and Asia through an extensive network of more than 1000 system integrators, Matrix ensures that the products serve the needs of its customers faster and longer. Matrix has gained trust and admiration of customers representing the entire spectrum of industries. Matrix has won many national and international awards for its innovative products.
