

SOHO IP-PBX

Small and Medium Business Communication Solutions

Strength, success and growth of small and medium businesses rely on strong relationships with the end customers and business associates. To stay competitive in the market, efficient communication and better customer responsiveness are essential business drivers for small and medium businesses. Also, the new age SMB and SOHO businesses look for IP based communication infrastructure to further enhance employee productivity and mobility leading to quicker decision making of key business aspects.

Matrix presents an IP-PBX for SOHO and Small and Medium Businesses that can easily scale as the organization grows, reduces total ownership cost and enhances customer experience with IP based office communication solution. The key features of Matrix SMB and SOHO IP-PBX are Mobile endpoints, Voice Mail and Integrated Auto-attendant, VoIP based communications, and In-skin GSM trunking, which allows businesses to communicate and collaborate smartly. Matrix range of IP-PBX solution assists small businesses with reliable, scalable and technologically advanced telecommunication solutions, engineered specifically for SMB and SOHO business organization.

Contact Grouping

DIGITAL KEYPHONES

Matrix EON series of Digital Key Phones are elegantly designed to offer reliable performance, quality of business communication and efficient call management. With a unique blend of style and substance, Matrix EON is suitable for office professionals, supervisors, managers and executives. EON provides High Quality Speakerphone, Programmable Feature and DSS Keys, Corporate Directory, Message Wait Lamp, Voice Mail and Intuitive User Interface. EON510 is the Premium Digital Key Phone By Matrix.

EON510 - Premium Digital Key Phone

- 240*64 Pixels Graphical LCD with Backlit
- 16 DSS Keys
- 4 Context Sensitive Keys
- 32 Keys Expansion Module (DSS532)

APPLICATIONS

COMPUTER TELEPHONY INTEGRATION (CTI)

CTI interfaced with Matrix ETERNITY IP-PBX systems allows control of telephone from the PC, which includes answering calls or hanging up, transferring, forwarding, conferencing and placing calls on hold. Third party CTI software with TAPI2.2 support can be used as a medium between CTI Application and IP-PBX.

Key Features

- Create Innovative Business Applications like IVR, ACD, Dialers and Voice Logging with Third Party CTI Applications
- Integration with Various Customer Database like MS Outlook, CRM and ERP
- Live Monitoring of Trunks and Extensions
- Get Customer Information Prior to Call Connection

EMAIL TO SMS

Email to SMS feature of ETERNITY IP-PBXs allows businesses to avail benefits of SMS messaging through the existing email platforms. Email to SMS enables users to send SMS from their email client using GSM SIM in the Matrix IP-PBX. It supports bulk SMS with the flexibility of assigning it to selective users.

Key Features

- Compatible with Majority of Email Clients (Gmail, MS Outlook, Yahoo mail and more)
- Saves Cost as No Third Party Software Required
- Send Bulk Messages with up to 999 Numbers
- Get Report of Delivery Status on Email

SMS GATEWAY

Easy to use SMS client software installed on computer can send/receive SMS using GSM SIM of Matrix IP-PBX. SMS Gateway is used for circulating Reminders, Greetings, Confirmations, Information Updates, Surveys, Notifications, SMS Marketing and Email Integrations.

Key Features

- No need of Internet Connection
- Send Confidential and Secured Messages
- Instant Delivery of the Message and its Status Report
- Two-way Messaging for Customer Feedback

Applications

- One Time Password (OTP) Generation for Online Payments
- Traffic Updates to Inform the Traffic Environment and Accident Prone Zones
- Bulk SMS
- Fire Alert for Accident Safety

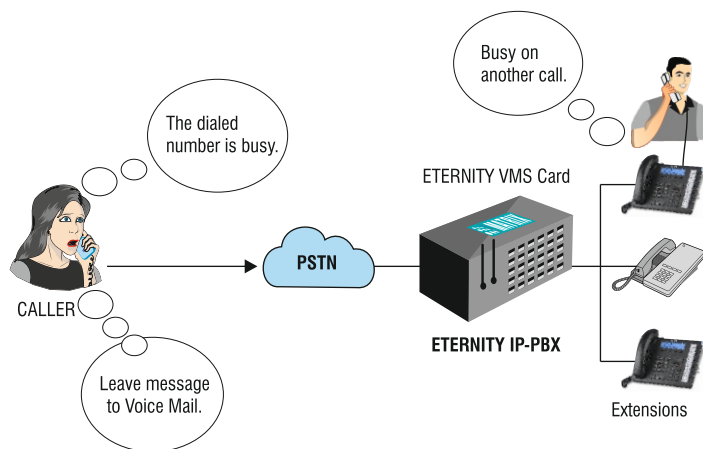

VOICE MAIL

ETERNITY IP-PBX supports Voice Mail System (VMS) through an optional VMS card. It provides a full-fledged in-skin Voice Mail System designed to provide variety of applications usually supported by any external Voice Mail System.

Key Features

- Multi-lingual Auto-attendants for Efficient Call Routing
- Conversation Recording for Critical Business References and Record Keeping
- Notification via Email for Quick Access to Message
- Multiple Mailboxes for Resource Sharing

Detailed Graph and Node Structure

Conversation Recording Up to 576 Hours

Multiple Auto-attendants

Personalized Greetings
