MATRIX
SECURITY SOLUTIONS

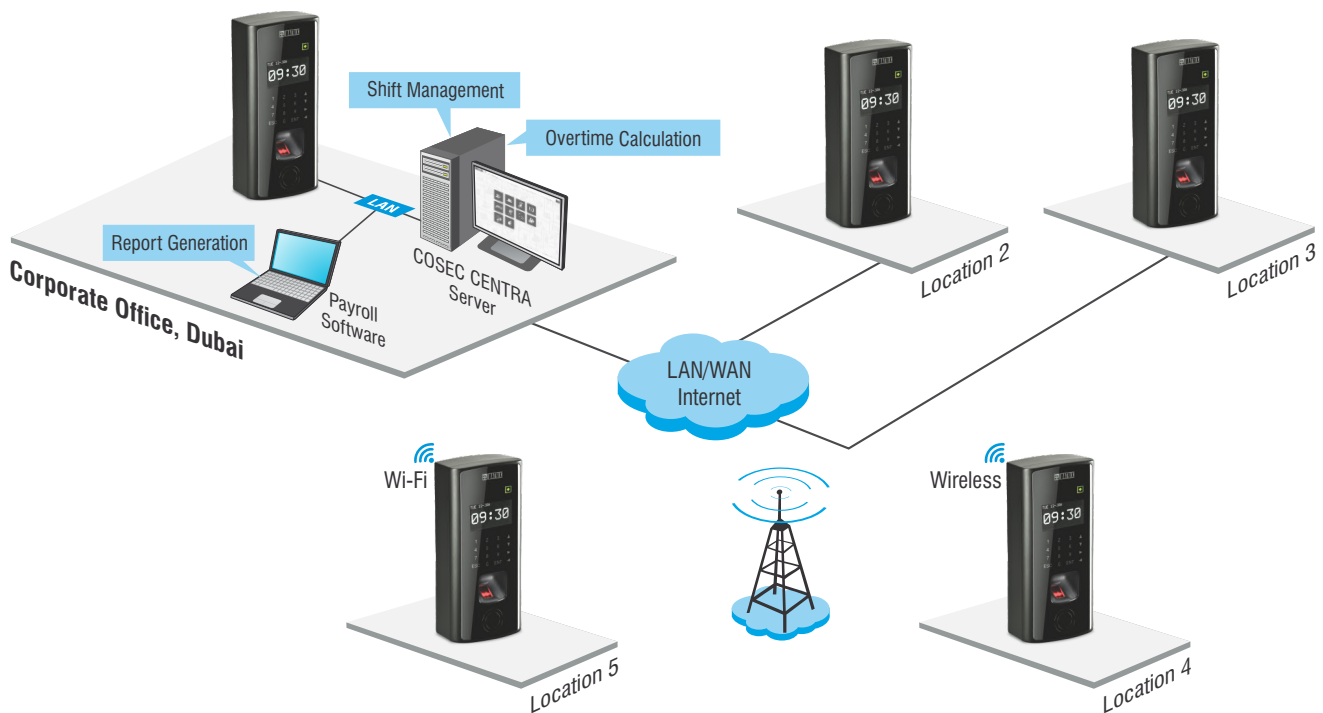

CHALLENGES:

As Day To Day is operational at several locations, it can be slightly dreary to manage attendance of every person while keeping a track of each of their IN and OUT timings, overtime, leaves, and shift management for multiple locations from one single location. So, attendance management, multiple shift management and over time calculation can be a tricky challenge. Apart from that, they required specific type of reports to map everything department or location wise.

SOLUTION OFFERED:

Matrix offered its dynamic range of biometric hardware products along with the software solutions to complement the devices. As Day To Day is an exponentially growing company building stores at several locations, Matrix offered to help them manage its employees at all the locations. This solution proves to be useful in managing the attendance of their employees, their shift management and overtime management along with several specific types of reports generated with detailed filter options to smooth the process and analysis for the Supervisor.

SOLUTION DIAGRAM

RESULTS

Day To Day fulfilled its requirement with Matrix People Mobility Management Solution and achieved the following results:

- Managed Employees through Centralized Monitoring from a Single Location
- Reduced Complexity of Shifts by Time-Attendance Solution
- Eliminated Overtime Issues with Matrix Time-Attendance Solution
- Lessened burden for HR with Various Precise Reports
