

## TCIEXPRESS opts for Matrix Time-Attendance Solution to Increase Productivity and Quick Salary Processing

### Case Study

#### COMPANY PROFILE:

TCIEXPRESS is a customer-oriented, multi-technology transport system in the Indian and International markets. It pursues value-based policies to satisfy the aspirations of society, customers, vendors, employees, shareholders and the transport industry. Speed is the essence of all the services of TCIEXPRESS whether through land or air, anywhere in India and the world.

#### CHALLENGES:

TCIEXPRESS is actively engaged at 500 locations across India. To manage entire attendance, diverse shifts and leave policies for the various locations and numerous workers at a central place was a very tedious task for them. Moreover, this leads to complex computation for salary based on the absent-present report. So, their requirement of timely and error-free payroll processing was arisen to improve overall productivity. Ultimately, they were facing challenges over various matters like manual paperwork, lack of productivity and discipline, remote access of all the locations for Time-Attendance and payment process.
